- 1. The data used in calculating rate base are averages.
- 2. Calculate those averages by summing the first-of-year and the end-of-year figures for each account and then dividing the sum by two.
- 3. Note: Do not include property held for future use or construction work in progress with utility plant in service. These are not rate base components.

Good Afternoon,

Sue Dejardin dropped off your letter of August 27, 2002 regarding the 2001 Analytical Review of the Maplewood Sanitary District No. 1 PSC report. As our firm prepared the report, she asked that we respond to your request for additional information.

- 1. Water Services (Page W-16) the service added during 2001 was financed by the property owner reimbursing the utility for the actual costs incurred to install the service.
- 2. Account 686, Employees Pensions and Benefits (Page W-5) there are no amounts reported in this expense category as the utility has only a part-time staff who receive no benefits; actual operation of the system is contracted out to Midwest Contract Operations, Inc.
- 3. The utility does not use the water meter to measure sewer volume.

I hope the above provides satisfactory answers to your request. Should you need additional information, please feel free to contact me via e-mail or at 920-743-8699.

Thank You,

Ms. Susan J. Dejardin, Commissioner Maplewood Sanitary District No.1 P.O. Box 352 Maplewood, WI 54226-0352

2001 Analytical Review DWCCA-3345-PJL

Dear Ms. Dejardin:

The Public Service Commission (Commission) staff has completed its analytical review of your utility's 2001 annual report. The primary purpose of the analytical review is to detect possible reporting or accounting related errors and also to identify significant fluctuations from prior years' data that are not sufficiently explained in the annual report. The analytical review did identify the following issue(s):

FINANCIAL SECTION FOOTNOTES

- 1. As directed in the head notes of the water services schedule on page W-16, please explain how the service reported as added during the year was financed and follow this procedure in the future.
- 2. Please explain why there are no dollars reported in Account 686, Employees Pensions and Benefits on page W-5.
- 3. During our review we noted that that the utility did not report any depreciation expense on meters charged to sewer, (Account 110), or return on net investment in meters charged to sewer department, (Account 474). If a sewer department uses the water meter to measure sewer volume for purposes of charging for sewer service, the water utility must charge the sewer department for its share of water meter costs. See Section 4, Pages 10 and 11 of the Water Utility Reference Manual (enclosed). Please confirm that the sewer department does not use the water meter to measure sewer volume, or, if the sewer department is using the water meter, please confirm that your utility will begin to allocate the water meter costs on your 2002 books.

Responding to the questions posed from the analytical review does not preclude you from possibly receiving other inquiries from our office regarding your annual report in the future: for instance, during a rate case, construction authorization, or other Commission reviews.

We appreciate your cooperation in providing the above information. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter.

We prefer that you respond by e-mail if it is convenient for you to do so. My e-mail address is peter.leege@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Peter J. Leege Financial Specialist Division of Water, Compliance, and Consumer Affairs
